Print length : 32 pages

This book is filled with fun and engaging STEM activities that are also good for the environment. Kids will learn how to build a solar oven, make a wind turbine, and even create their own recycled paper. They'll also learn about the importance of recycling and how to reduce their carbon footprint.

Earth-Friendly Tech Crafts is the perfect way to get kids excited about STEM. The activities are easy to follow and require only simple materials, most of which can be found around the house. And best of all, the crafts are fun and educational.

Here are just a few of the activities you'll find in **Earth-Friendly Tech Crafts**:

- Build a solar oven
- Make a wind turbine
- Create your own recycled paper
- Build a robot out of recycled materials
- Make a solar-powered car

Earth-Friendly Tech Crafts is the perfect book for kids who are interested in STEM, the environment, or both. It's also a great resource for parents and teachers who want to teach kids about these important topics. Free Download your copy today and start exploring the world of green STEAM!
