

# GMAT Preparation: Practice Questions for Section 3

The Graduate Management Admission Test (GMAT) is a standardized exam required for admission to most graduate business programs. The GMAT is divided into four sections: Verbal Reasoning, Quantitative Reasoning, Integrated Reasoning, and Analytical Writing Assessment. Section 3, Integrated Reasoning, is a relatively new section that was added to the GMAT in 2012. Integrated Reasoning questions test your ability to analyze data from multiple sources and draw conclusions.

Preparing for the GMAT can be a daunting task, but it is important to remember that you are not alone. There are many resources available to help you prepare for the exam, including practice questions. Practice questions can help you identify your strengths and weaknesses, and they can also help you get used to the format of the exam.

The following are some tips for using practice questions to prepare for the GMAT Section 3:

- **Start by taking a practice test.** This will help you get a sense of the format of the exam and the types of questions that you will be asked.
- **Review the questions that you missed.** Make sure that you understand why you missed the questions and what you can do to avoid making the same mistakes in the future.
- **Practice regularly.** The more practice questions you take, the more comfortable you will become with the format of the exam and the types of questions that you will be asked.
- **Use a variety of resources.** There are many different resources available to help you prepare for the GMAT, including practice questions, study guides, and online courses.

Preparing for the GMAT can be a lot of work, but it is important to remember that you are not alone. There are many resources available to help you prepare for the exam, and with hard work and dedication, you can achieve your goals.

### **GMAT Preparation Practice Questions For Section 3**

The following are a few practice questions for GMAT Section 3. These questions are designed to help you get a sense of the format of the exam and the types of questions that you will be asked.

#### **1. Question 1:**

The following table shows the number of students enrolled in each of three different graduate programs at a university.

Program	Number of Students
Business	1,000
Education	500
Engineering	750

Which of the following is the correct graphical representation of the data in the table?

(A) A pie chart (B) A bar graph (C) A scatter plot (D) A line graph

**Answer:** (B) A bar graph

## 2. Question 2:

The following table shows the average salary for employees in four different job categories.

Job Category	Average Salary
Engineer	\$100,000
Teacher	\$50,000
Doctor	\$150,000
Lawyer	\$125,000

Which of the following is the correct graphical representation of the data in the table?

(A) A pie chart (B) A bar graph (C) A scatter plot (D) A line graph

**Answer:** (B) A bar graph

## 3. Question 3:

The following table shows the number of students who scored in each of five different score ranges on a standardized test.

Score Range	Number of Students
0-10	100
11-20	200
21-30	300
31-40	400
41-50	500

Which of the following is the correct graphical representation of the data in the table?

(A) A pie chart (B) A bar graph (C) A scatter plot (D) A line graph

**Answer:** (B) A bar graph

These are just a few examples of the types of questions that you will be asked on the GMAT Section 3. By practicing regularly, you can improve your skills and increase your chances of success on the exam.

If you are looking for a comprehensive resource to help you prepare for the GMAT Section 3, I recommend the following book:

**GMAT Preparation Practice Questions For Section 3** by Manhattan Prep

This book provides a comprehensive overview of the Section 3 format and question types. It also includes over 200 practice questions with detailed explanations.

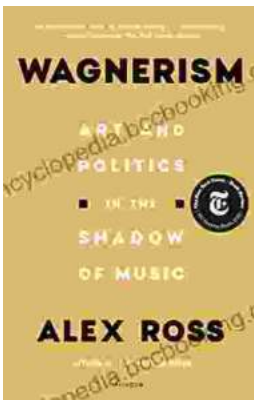

With hard work and dedication, you can achieve your goals on the GMAT. Good luck!
