

Goldstein: My Screwed Life - A Riveting Memoir of Mishaps and Misadventures

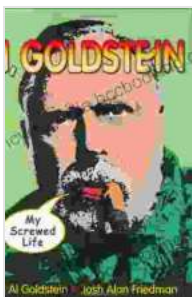

A Laugh-Out-Loud Look at Life's Little Screw-Ups

From the moment Goldstein was born, it was clear that life had a twisted sense of humor. As a toddler, he managed to get his head stuck in a

bannister, requiring a team of firefighters to extricate him. In elementary school, he accidentally set his pants on fire during a science experiment. And in high school, he was the victim of a cruel prank that involved a bucket of water and a strategically placed banana peel.

But Goldstein's misadventures didn't end there. In college, he accidentally joined a cult that worshipped a giant rubber ducky. As an adult, he lost his job after accidentally sending a profanity-laced email to his entire company. And on his wedding day, he tripped and fell into the wedding cake, ruining both the cake and his new tuxedo.
