

Iberian World Empires and the Globalization of Europe 1415-1668

Palgrave

This book examines the global impact of the Iberian empires, focusing on the period between 1415 and 1668, when Spain and Portugal established vast and lucrative empires in the Americas, Asia, and Africa. The book explores the interplay between the Iberian empires and the development of global trade, cultural exchange, and political power.

Iberian World Empires and the Globalization of Europe 1415–1668 (Palgrave Studies in Comparative Global History) by Bartolomé Yun-Casalilla

The Iberian empires were the first truly global empires, and their impact on the world was profound. They introduced new crops, animals, and technologies to the Americas, Asia, and Africa, and they played a major role in the development of the global slave trade. The Iberian empires also had a significant impact on European culture, as they brought back new ideas and customs from around the world.

This book is a major contribution to the study of the Iberian empires and their impact on the world. It is a comprehensive and well-researched work that will be of interest to scholars and general readers alike.
