The book is divided into three parts. The first part, "The Absurd," features stories that are just plain weird. There's the story of a man who tries to sell his soul on eBay, the story of a woman who believes she can talk to animals, and the story of a man who is convinced that he is the reincarnation of Elvis Presley.

The second part of the book, "The Extraordinary," features stories that are more heartwarming and inspiring. There's the story of a woman who finds love in the most unexpected place, the story of a man who overcomes a life-threatening illness, and the story of a group of friends who come together to help a homeless man.

The third part of the book, "The Unexplained," features stories that defy all logic and reason. There's the story of a woman who disappears without a trace, the story of a man who claims to have seen a UFO, and the story of a group of people who are haunted by a mysterious creature.

Obviously Stories From My Timeline is a book that will stay with you long after you finish reading it. It is a book that will make you laugh, cry, and think about the world in a whole new way.
